

### Quality eyewear. Hard-to-beat prices.

The Advantage Collection was designed to give your practice an affordably priced eyewear collection made with quality materials and classic styles.

Born out of necessity for timeless eyewear at affordable prices, this collection for men and women and children transcends seasons and trends with eyewear that is functional and evergreen.

This modestly priced collection will help your practice easily capture second pair sales (from eyeglass and contact lens wearers) as well as patients who have purchased low-cost eyewear from online retailers in the past. Patients utilizing vision care benefits or flex spending dollars will have a high-quality eyewear option priced within their budget.
